HOMEWORK 10

DAVID BEN-ZVI

1. Read Chapter 4.6 in Guillemin and Pollack and think about the sequence of problems there (I'm not asking for a writeup of solutions).

2. Chapter 4.7: 4, (read surrounding problems for concrete manifestations of Stokes theorem), 10,11,12, 4.8: 4,5,6,7 (assuming all previous problems you are referred to)
