

Activity 0.3 ♦ Two Congruent Halves

In each of the figures that follow, draw a line from dot to dot to cut the figure in half in such a way that the two halves are congruent. The dotted line illustrates how the first one can be done.

1. 2. 3.

4. 5. 6.

7. 8. 9. 10.

Can you think of a way that could be used to check your answers to these problems? Describe the way on the back of this page:
